

 CASHMAN

TELEMATICS SHARING CONSENT FORM

Terms & Conditions

Data concerning equipment purchased, rented or leased from Cashman Equipment Company (“CECO”), including data as to the condition and operation of such equipment, may be collected and transmitted to Caterpillar Inc., its affiliates (collectively, “Caterpillar”) and/or its dealers. Such equipment may be equipped with a telematics system (e.g., Product Link) to transmit data.

Caterpillar recognizes and respects customer privacy. The Caterpillar Telematics Data Privacy Statement (as it may be amended, supplemented or otherwise modified, the “Privacy Statement”) describes the categories of information collected, the purposes of processing such information, how such information is shared and how to ask questions about telematics. The Privacy Statement is available online at www.cat.com.

The Customer hereby consents, agrees to allow and grants a worldwide, perpetual, fully paid up, non-exclusive and irrevocable license to Caterpillar and its dealers (including CECO) to use, access and transfer information collected and transmitted in accordance with this consent form and the Privacy Statement. The Customer acknowledges and agrees that such information may be transferred to jurisdictions that may not offer the same level of data protection as the jurisdiction in which the Customer is located. Furthermore, the Customer acknowledges and agrees that, to the extent the consent of the operator is required, the Customer will have and will obtain their consent prior to allowing them to use the equipment.

In the event that the Customer transfers ownership of the equipment, the Customer agrees to notify the next owner about the telematics system, the information being transmitted, the purposes of processing such information and the other information contained in this consent, including a link to the Privacy Statement. In addition, the Customer will notify CECO as to the transfer of ownership of the equipment.

The Customer (a) acknowledges receipt of a copy of the Privacy Statement, (b) has read and understands the Privacy Statement; and (c) freely consents to the data collection and transfers described in this consent and the Privacy Statement.
