

**CASHMAN**

## 1,000 HOUR PLANNED PREVENTATIVE MAINTENANCE\*

**Engine oil & filter**  
**Engine crankcase breather**  
**Engine air filters**  
**Intake & exhaust system**  
**Fan & alternator belts**  
**Lubricate machine**  
**Radiator**  
**Cooling system**  
**Coolant filter**  
**Transmission**  
**Transmission & Differential housings**  
**Hydraulic system**  
**Hydraulic cycle times**  
**Gear oil compartments**  
**Fuel tank**  
**Air reservoir**  
**Air dryer**  
**Seat belt**  
**Alarms, indicators, & gauges**  
**Back-up alarm & lights**  
**Tires**  
**Brake system**  
**Batteries, cables, & terminals**  
**Air conditioning**  
**Ground engaging tools (GET) & undercarriage**  
**Hydraulic Cylinders**  
**Glass, doors, latches, & body panels**  
**Rollover protective structure (ROPS)**  
**Machine operation**  
**Fluid Analysis of all oil compartments & coolant**

Change  
 Inspect & clean  
 Inspect & clean primary, change secondary filter  
 Visual check for leaks  
 Inspect & adjust if necessary  
 Service all grease fittings  
 Check coolant level & test antifreeze  
 Inspect for leaks & fill if necessary  
 Replace if equipped  
 Change oil & filter, clean breather  
 Check oil level & fill if necessary  
 Check for leaks & fill if necessary  
 Test  
 Check for leaks & fill if necessary  
 Drain moisture & sediment, inspect for leaks  
 Drain moisture & sediment, inspect for leaks  
 Inspect if equipped  
 Inspect for damage or expiration  
 Verify operation  
 Verify operation  
 Check inflation pressure & fill if necessary  
 Check operation & fill fluid level if necessary  
 Inspect & fill if necessary  
 Verify operation & clean cab filters  
 Visually inspect  
 Inspect for leaks or damage  
 Inspect for damage  
 Inspect  
 Operational performance check
